EDITORIAL & FOREWORD

Bridging the Gap Between Bespoke Joinery & Flatpacks

For decades, South Australian builders, trade carpenters, and renovators were forced to choose between two extremes: expensive custom cabinetmakers with 14-week lead times, or flimsy mass-retail modular flatpacks with cardboard 3mm backings and rigid 100mm size constraints.

At Top Line Furniture Flatpacks Online, we engineered a superior trade alternative. Operating out of our advanced computerized manufacturing facility in Mount Barker, South Australia, we bring commercial-grade homag CNC technology, solid 16mm/18mm HMR cabinetry carcasses, and Austrian Blum hardware directly to your workshop or renovation site.

Whether you are installing a high-end architectural kitchen in Stirling or a laundry run in Aldgate, our system gives you millimeter precision, supreme structural durability, and genuine factory direct pricing.

THE TOP LINE COMMITMENT:

1. Solid 16mm backs standard on every carcass.
2. All panels pre-drilled for mortise cam & pin + 50mm confirmat screws.
3. 100% genuine Blum hardware backed by Austrian lifetime mechanical warranty.

ENGINEERING SPECIFICATION

Why We Standardised on Solid 16mm/18mm Backs

Big-box retailers rely on flimsy 3mm masonite backing boards that slide into a shallow groove. Under the weight of stacked heavy ceramic plates, stoneware pots, or wall settling, these 3mm backs flex, bow, and pull away from the wall.

The Top Line Solution: Every carcass is built around a structural solid 16mm or 18mm High-Moisture-Resistant (HMR) back panel, screw-fastened directly into the top, base, and side gables.

FEATURE	TOP LINE FLATPACKS	RETAIL MASS FLATPACKS
Backing Thickness	16mm / 18mm Solid HMR	3mm Masonite / Cardboard
Fastening	Screw-fixed directly into gables	Slide groove + tiny panel pins
Racking Resistance	Absolute structural rigidity	Flexes & twists under load
Hanging Rails	Not needed - screw through solid back	Requires metal bracket clips
Moisture Resistance	Australian EO HMR White Board	Standard particleboard / MDF
Hardware Partner	Genuine Blum Austria	Generic unbranded hardware

HARDWARE SPOTLIGHT

Blum LEGRABOX: The Apex of European Motion

In high-end architectural cabinetry, the drawer has completely replaced the low under-bench shelf. We partnered directly with Austrian precision manufacturer Blum to bring LEGRABOX and TANDEMBOX into every flatpack kit.

- 12.8mm Ultra-Slim Walls: Maximize interior volume with dead-straight vertical walls.
- 70kg Dynamic Load: Effortless glide even with cast iron casseroles and heavy dinnerware.
- BLUMOTION Soft-Close: Silent deceleration that never slams or rebounds.
- 3D Front Adjustment: Tunable height, tilt, and lateral reveal for crisp 2mm shadowlines.

AUSTRIAN LIFETIME WARRANTY

Every Blum runner and hinge supplied by Top Line Furniture Flatpacks Online is backed by a lifetime mechanical warranty. Over 200,000 opening cycles tested.

PRE-CONFIGURED STARTERS

Trade CAD Room Templates (Direct Requisition)

Save hours of drafting by selecting a pre-engineered room configuration:

THE BARKER (Entertainer Island Kitchen)

8 Units • 2700mm Island + 3400mm Perimeter Run • Blum LEGRABOX

Our flagship Adelaide Hills architectural kitchen layout.

THE WISTOW (Corner L-Shape Kitchen)

7 Units • 3000x2400mm L-Junction • Bi-Fold Corner & Heavy Pots Drawers

High-efficiency corner layout with heavy-duty 65kg Blum runner slides.

THE MEADOWS (Scullery & Laundry Suite)

6 Units • 2400mm Run + 600mm Linen Tower • Washer/Dryer Inset

Ergonomic benchtop workflow with integrated tall broom/vacuum storage.

THE SUMMIT (Master Walk-In Robe)

7 Units • Twin Hanging Wings • 5-Drawer LEGRABOX Island + Footwear Gallery

Architectural dressing suite with low-profile Blum accessory storage.

THE SPRINGS (Double Floating Vanity)

2 Units • 1800mm Wall-Hung Run • Twin Basins with Pre-Cut Plumbing Traps

Wall-hung luxury vanity with moisture-sealed 18mm Australian HMR carcass.

SOFTWARE PLATFORM

Millimeter-Exact 3D CAD Planner in Your Browser

No complex CAD software installation needed. Our browser-based planner connects directly to our factory floor CNC routers. Draw your room perimeter, snap cabinets into place, and configure:

- Exact widths, depths, and heights down to the individual millimeter.
- Corner void scribes and ceiling infills calculated automatically.
- Real-time pricing updates as you tweak drawer banks and door configurations.
- Instant 3D walk-through rendering to show your client or partner.

MATERIAL PALETTES

Australian Surfaces: Polytec, Laminex & 2-Pack Polyurethane

We manufacture carcasses and doors using authentic Australian-sourced boards:

1. Polytec Melamine & Thermolaminated Vinyl:
   Woodmatt, Matt, and Sheen textures with high scratch and stain resistance.

2. Laminex AbsoluteMatte & Silk Finish:
   Fingerprint-resistant super-matte tactile surfaces ideal for contemporary dark tones.

3. Custom 2-Pack Polyurethane Painted Doors:
   Matched to any Dulux color swatch with seamless spray-painted edges and shaker profiles.
